

Contact No. 282

Change Notice

Change to JPM & JPL Pushbuttons' Stationary Contacts

Type of Change:

- Engineering Part Number
 Product Appearance

JPM and JPL Pushbuttons will have a revision to the stationary contact material. The material will change from silver alloy to silver alloy plus copper. This will effect all models, both standard and custom. There will also be a change to the shape of the stationary contacts, although it is an internal revision not noticeable from the outside of the switch. The following table describes the material difference before and after the modification.

JPM Pushbutton

Stationary Contacts Before Change	Stationary Contacts After Change
Silver Alloy	Silver Alloy Plus Copper

* Part Numbers Effected by the Change to Stationary Contacts			
JPM16B	JPM16P	JPM26B	JPM26P
JPL16B	JPL16P	JPL26B	JPL26P

* Part numbers include any combination with cap colors A, B, C, H

Notes

There are no changes to the movable contacts.
There are no changes to any other specifications, ratings or electrical life.
Contact factory if more details are needed.

Effective Date

Changes to JPM and JPL stationary contacts' material and shape will be effective January 2017.
