Changes to Location & Production for GB Pushbuttons & GW Rockers & Paddles

Type of Change:

- Engineering Part Number
- Product Appearance

The original Contact No. 369 released April 2021 is being reissued as Contact No. 369-A. The only new changes are the Effective Dates as shown below.

Changes for GB Pushbuttons & GW Rockers & Paddles

There will be revisions to the production and manufacture location for GB Pushbuttons and GW Rockers and Paddles, both illuminated and nonilluminated in each series. Previously, the lot code on the switch body had a dot mark above the first digit, but now the dot mark will be above the second digit. The shipping box for these pushbuttons, rockers or paddles had "CHINA FACTORY" on the side, but will be replaced with "PHILIPPINES FACTORY." These changes will apply to standard and custom GB Pushbuttons and GW Rockers. Effected standard part numbers for GB Series are below, and standard GW Series part numbers are on page 2.

	Lot Number	Shipping Box
Before Changes	Dot Mark Above First Digit Enlarged to Show Detail	 "CHINA FACTORY" printed on side of box
After Changes	Dot Mark Above Second Digit Enlarged to Show Detail	 "PHILIPPINES FACTORY" printed on side of box

Notes

There are no changes to the switches' dimensions or specifications.
 The location of the Lot Number on switch case may vary depending on the part number.
 Contact the factory if more details are needed.
