

# Change Notice

# LB, UB & UB2 Series

## Changes to Color of Epoxy Seal for Terminals

Type of Change:

- Engineering     Part Number
- Product         Appearance

There will be revisions to the colors of the epoxy seal applied at the base of terminals for LB, UB and UB2 Series pushbuttons and indicators. This change will effect all illuminated and nonilluminated devices for each of the series. Previously, the epoxy seal had been light blue for LB Series, and it will be modified to white. UB and UB2 Series epoxy seal had been green and will change to white also. There will be no difference in the effectiveness of the new white epoxy seal in protecting the terminal base against entry of flux, solvents and other contaminants. These changes will apply to all standard and custom LB, UB and UB2 switches and indicators.

Effected standard part numbers for each of the series are listed on the following page.

**An Example of Epoxy Seal at Base of Terminals Before the Change**

Series	Epoxy Seal Before Changes	Epoxy Seal After Changes
<b>LB</b> Illuminated Pushbuttons Nonilluminated Pushbuttons Indicators	Epoxy Seal Color: Light Blue	Epoxy Seal Color: <b>White</b>
<b>UB and UB2</b> Illuminated Pushbuttons Nonilluminated Pushbuttons Indicators	Epoxy Seal Color: Green	Epoxy Seal Color: <b>White</b>

### Notes

There are no changes to the switches' dimensions or specifications.  
 Contact the factory if more details are needed.

### Effective Dates

Changes for LB Series will be effective October 2022; for UB and UB2 Series, November 2022.
