## Changes for AT412 Caps for MBN & WB Series Pushbuttons

Type of Change:

- Engineering     Part Number
- Product         Appearance

*The original Contact No. 412 released April 2024 is being reissued as Contact No. 412-A. The new revision, production location of the AT412 caps, will be changing from the Japan Factory to the China Factory, and follows on page 2. There are no revisions to Page 1.*

1. There will be revisions to the 19mm diameter AT412 screw-on caps for MBN and WB Series Pushbuttons. The underside of the cap's structure will change, and the material, formerly polystyrene, will be revised to PBT resin. This change will apply to all standard and custom AT412 caps in each of the four colors. There will be no difference in the effectiveness of the caps' fit or function, and no external dimensions will be altered.

Effected standard part numbers are on the table below.

**Changes to AT412 Caps in Underside Structure and Material**
