Changes to Material for Plunger & Operating Plate for Specific Models of MB Series

Type of Change:

- ☒ Engineering ☐ Part Number
☒ Product ☒ Appearance

I. There will be a revision to the material of the plunger for MBN models of the MB Series Pushbuttons with large 12mm bushings (codes B1 and B3). The plunger material, formerly polyacetal, will change to polybutylene terephthalate (PBT). This revision will apply to both standard and custom switches. Effected standard part numbers are listed on the table below.
