## Changes to Material of Brackets for SK, MRB and MR Series

Type of Change:

- Engineering     Part Number
- Product         Appearance

There will be changes for the material of brackets, or mounting plates, for the following: SK Series Process Sealed Keylocks and MRB Series PCB Process Sealed Rotaries. Additionally, a support bracket from MR Series Half-Inch Diameter Rotaries, specifically for the MRK model, will undergo the same revision. This change will apply to standard and custom models in each series. The previous material, steel, will be changing to phosphor bronze. Details are highlighted on the following table.

The effected standard part numbers are displayed below.
