

Change Notice

M Series

Change of Bracket Plating on Right Angle Mount M2T Toggles, M2T Rockers and M2B Pushbuttons

Type of Change:

- Engineering Part Number
 Product Appearance

All models of M2T toggles, M2T rockers and M2B pushbuttons (single pole and double pole) with right angle mounting will have a change to the plating of the brackets. This change will effect both standard and custom products for these series. The table below displays the material of the bracket plating before and after the modification.

Plating of Right Angle Bracket	
Before Change	After Change
Tin (Sn) Plating with Copper (Cu) Alloy	Tin (Sn) Plating
Undercoat: Nickel (Ni)	Undercoat: Nickel (Ni)

Notes

There are no changes to the switches' dimensions.
Contact the factory if more details are needed.

Effective Date

Changes to the bracket plating on the M2T Toggles, M2T Rockers and M2B Pushbuttons right angle mount will be effective with July 2014 production.
