

# Change Notice DB, EB, M2B, MB2000, MB2400, MB2500 Series

## Change of Plunger Dimensions

Type of Change:

- Engineering     Part Number
- Product         Appearance

The following series will have modifications to diameters and to the end length of the plungers: DB, EB and MB2500; M2B with B plunger, MB2000 with L plunger and MB2400 snap-in mount. This change will effect both standard and custom products for each of these series. All of the caps previously used will still fit the plungers.

Before Change	After Change

The diameter of the plunger will be slightly reduced, and the dimension of the end length will be increased.

**Notes**

There are no other changes to the plunger or switch specifications.  
 The same caps may be used after changes to the plunger.  
 Contact the factory if more details are needed.

**Effective Date**

Changes to DB, EB, MB2500, M2B, MB2000 and MB2400 plungers will be effective February 2015.
